ROSEN JCC LEARNING CENTER

Infants & Toddlers Learning Curriculum

A print-rich, literature-rich world that turns every story into hands-on learning.

FEATURED APPROACH

Story S-t-r-e-t-c-h-e-r-s™

This approach builds a print-rich, literature-rich environment for young children — an interactive teaching idea based on the story or content of a children's book.

Story stretchers invite active participation and hands-on exploration of concepts across math, literacy, science and discovery, and social skills. The activities are playful, fun, and guided by what we know about how young children learn best.

STORY STRETCHERS COME FROM SIX AREAS

Language	Movement	Music
Object Play	Pretending	Sensory

CHOOSING GREAT BOOKS

What Makes a Book "Stretchable"?

A great story-stretcher book introduces or builds on concepts, connects to what children already know, and sparks fun through its story, design, or format.

This curriculum helps children make connections between the book and their own lives — building sensory awareness, language development, and creative thinking.
